

At nCino we are guided by six core values—Make Someone’s Day, Do the Right Thing, Respect Each Other, Have Fun, Bring Your A-Game, and Be a Winner. This commitment to our core values ensures that we continually strive for excellence and treat our customers, employees, and communities with respect and fairness. As a part of this commitment, we believe in creating accessible products that allow our customers to provide an inclusive experience to their employees and end consumers.

Our accessibility efforts are based on compliance with the [W3C Web Accessibility Initiative’s Web Content Accessibility Guidelines](#) (WCAG), an international standard created to ensure that technology is more accessible and usable for individuals with disabilities. We strive for compliance with [WCAG 2.1, Level AA](#). Information about our current adherence to WCAG standards is available upon request and is provided via the standardized [Voluntary Product Accessibility Template](#) (VPAT) format created and maintained by the Information Technology Industry Council (ITI). We will also ensure third-party providers are aware of our accessibility policy.

Our accessibility efforts are ongoing and responsive as technologies and standards evolve. We are committed to working with our customers to ensure that they can create accessible experiences on the nCino platform.

Please report any issues to ALIAS@ncino.com.
